PROFESSIONAL TOOLS

SALON PROFESSIONAL
SPRAY TAN RANGE 2020

MADE BY THE EXPERTS. FOR THE EXPERTS.

SUPERIOR DESIGN IN SPRAY TAN TECHNOLOGY

A new generation of spray tan machines made by spray tan experts within the industry. For anyone wanting the perfect professional spray tan at home or in a salon, who understands it better than the team at Innova – developing a wide range of spray tan products within the industry for more than 15 years.

Ask the team at MarqLabs what forms the basis of the perfect tan, and we'll tell you it's great tools. MarqLabs has set out to provide a collection of breakthrough tanning tools, designed to provide experts around the globe with the perfect spray tan. With custom technology found only in these machines, Innova promise a new standard in professional spray tanning while giving everyone the chance to become the ultimate tanning expert.

INNOVATION FOR TANNING EXPERTS

Innova was created to provide professionals and spray tan brands with the very best tanning equipment.

As we have worked within the industry, we supply the complete package of world-first, innovative equipment for all types of expert tanners:

- › **PROFESSIONAL SALON**
- › **MOBILE & TRAVELLING TANNERS**
- › **HOME SALONS**
- › **IN-HOME PERSONAL USE**
- › **PROFESSIONAL SPRAY TAN BRANDS**

MANUFACTURING & PRIVATE LABEL

Rely on the expertise of our team at Innova to handle all the stages of spray tan equipment from manufacturing, design and safety testing. Innova's R&D team implements the latest technology to design the most innovative new spray tan equipment lines, keeping you ahead of your competition. This enables you to build your spray tan brand while Innova provides the technology & electrical products to support it.

TAN.HANDY GEN 2

MARQLABS[®]
PROFESSIONAL TOOLS

ALL-IN-ONE PORTABLE SPRAY TAN MACHINE WITH MICRO-WHIRLWIND TECHNOLOGY

FOR MOBILE TANNERS OR IN-HOME PERSONAL USE

Take your mobile tanning to the next level with the Innova Tan.Handy. This all-in-one professional hand-held spray tan machine with Micro-Whirlwind Technology is the next generation in professional tanning.

Unlike other spray tan machines, this all-in-one spray tan system is both spray tan gun and mini turbine in one hand-held unit. No need to carry separate hoses or spray tan machines, this spray tan machine provides salon quality spray tans that is totally portable and easy to carry, store and transport. Like any electrical hair appliance, simply plug the unit into the wall with its extra long power cord and turn it on. This compact little system is lighter than most hair dryers – making it easy to spray tan clients, in no time at all!

KEY FEATURES OF THE TAN.HANDY

- › **Makes Spray Tanning Easy** & Portable
- › **Adjustable** Flow Control
- › **An Instant Finish Like No Other** – A Portable spray tan experience with flawless, touch dry & streak-free results
- › **Professional Airflow** with Micro-Whirlwind Technology
- › **Lightweight, Compact & Completely Mobile** – with a professional length power cord making it perfectly portable during use.
- › **One Touch Control** – Set for Tanning Perfection
- › **Clean.Easy**, Stainless steel mechanism that simply cleans with water and no leakage.

TAN.LITE 32000

MARQLABS[®]
PROFESSIONAL TOOLS

WALL-HANGING PROFESSIONAL SPRAY TAN MACHINE WITH MICRO-WHIRLWIND TECHNOLOGY

FOR MOBILE OR SALON USE

Breakthrough technology places the Tan.Lite 32000 as the only product of its kind to offer lower energy consumption by 30% in addition to professional quality. Incredibly lightweight yet notably quiet, this innovative machine uses Micro-Whirlwind Technology that creates a continuous stream of smooth air for a more constant flow pattern for accurate, streak-free tanning. Coupled with an Intelligent Air-Smart Switch that promotes the perfect airflow, it ensures an even, streak-free tan that is free of blotches or splatters. Compact in size, it can be easily mounted to a wall or can be placed on the floor.

KEY FEATURES OF THE TAN.LITE

- › Wall-mountable lightweight design for professional use.
- › Intelligent Air-Smart switch for perfect airflow.
- › **High Transfer Efficiency**. Greater than 85% sprayed on the body, less overspray = less wastage and more profit.
- › **Clean.Easy**, Rust-free mechanism that simply cleans with water with no leakage.
- › Quick Connect Gun & Hose System for safe and easy connection.
- › **Rounded Filtration System** for easy cleaning and direct air intake for whisper quite sound.
- › Applicator provides a fine, smoother skin finish result with it's unique micro-needle that allows solution to absorb deep into the skin.

INCLUSIONS

1 x Tan.Lite 32000 Spray Tan Machine

1 x 'Excess 3' Extreme Volume Spray Tan Gun

1 x Professional Length 2.5m Air Hose

ITEM: 61694

COMPACT UNIT FOR ANY TANNING PROFESSIONAL

Compact enough to be easily transported, this light unit can also be wall-mounted so it does not take up floor space, allowing you to have more space within your tanning area. Perfect for salon, mobile or home use.

POWER, AIRFLOW & RPMs

With 32000 RPMs, the speed of airflow is important for spray tanning. RPMs generates a powerful, constant flow of even air speed needed for streak-free results with no blotches.

ONE TOUCH CONTROL SET FOR TANNING PERFECTION

Intelligent Air-Smart Switch: Perfectly set for flawless spray tanning results. So with just turning it on, it controls the airflow for the perfect spray. This means you get the same professional results every time.

TECHNICAL INFORMATION

Size: Ø: 253MM/9.9" H: 163MM/6.4"

Weight: 1.6KG/4.2LBS

Power/Airflow: 32000RPM

Noise: 35-50DB

Cup Capacity: 125ML/4.2FLOZ

POWERFUL 4 FAN EXTRACTION

The only product of its kind to offer 4 Extraction fans and higher air velocity in one system. More extraction fans, means more airflow to ensure all overspray is reduced with maximum results. This makes the spray tan experience pleasant for the customer and technicians. 4 fans from top to bottom ensures overspray is extracted evenly. The aerodynamic curved chamber funnels extraction, generating airflow into a cyclone. Industry strength extraction via the top and bottom fans extracts the overspray and generates clean air.

SIMPLE 20 MINUTE SET UP

Assembling the All In One Tan.Booth is simple, requiring only two people and 20 minutes or less. The booth is delivered to your door in a flat packed box, making it easily transportable to the desired location. No bulky, heavy, or complicated parts - simply assemble and start delivering the perfect tan in no time

ONE TOUCH CONTROL

Quickly and easily control the entire booth with the touch of a button. Switching the booth on automatically turns on the extraction fans, LED lights and spray tan machine. The switch is easily accessible at mid height so there is no need to bend down to turn the machine on. Then when you are finished spray tanning, simply turn off the booth with the flick of a switch.

PROFESSIONAL APPLICATION

The Tan.Lite 32000 Spray Tan Machine uses Micro-Whirlwind Technology that creates a continuous stream of smooth air for a more constant flow pattern for accurate, streak-free tanning. Coupled with the Excess 3 Applicator Gun with stainless steel components for increased spray tan control and reduced overspray.

ALL.IN.ONE TAN.BOOTH

MARQLABS
PROFESSIONAL TOOLS

PROFESSIONAL SPRAY TAN MACHINE & OVERSPRAY EXTRACTION BOOTH WITH MICRO-WHIRLWIND TECHNOLOGY

FOR SALON USE

The Tan.Booth is a Spray Tan Machine and Clean Air Overspray Extraction in one professional enclosure. Using innovative Micro-Whirlwind Technology, it's the perfect investment for any salon to create a dedicated spray tan area with the latest spray tan technology. The built in spray tan machine uses Micro-Whirlwind Technology that creates a powerful flow of continuous stream of smooth air for accurate, streak-free tanning. Coupled with an Intelligent Air - Smart Switch that promotes the perfect airflow, it ensures the same professional tan every-time.

KEY FEATURES OF THE ALL.IN.ONE.BOOTH

- **Cyclone Center Technology** - Full length industry strength extraction with Aerodynamic Curved Chamber funneling air into a cyclone for even tanning.
- **Natural Light Replication** - The perfect lighting for 360 degree tanning.
- **Technician Inspired Design** - Single switch control, ergonomic stance and easy to use Slip in - slip out easy clean filter system.
- **Customize** your tanning machine configuration, suitable for any salon space.
- **Ergonomic Design** - For ease of work and movement.
- **Small Salon Footprint** - Unlike most machines or tents, the AllIn.One.Booth focuses on minimizing the use of space.
- **Flat pack easy setup** - Two people can assemble in less than 20 minutes.

INCLUSIONS

- 1 x All-in-One Tan.Booth Spray Tan Machine & Overspray Reduction booth
- 2 x Tan.Fresh Air Filters
- 1 x 'Excess 3' Extreme Volume Spray Tan Gun
- 1 x Professional Length 2.5m Air Hose

ERGONOMIC DESIGN

Instead of curving outward at the base in a full circle, like traditional tanning booths, the All in One Tan.Booth features a half moon cut out. This enables you to stand in close to your client, without sacrificing your client's space within the booth. Being able to stand where you want (and need to be) is essential to creating the perfect spray tan.

NATURAL LIGHT REPLICATION

Lighting is critical when it comes to creating the perfect tan. The LED downlight diffuses the most natural light around the body of your client, allowing you to see your work as easily as if you were under a blue sky. Tuned at 5,780 degrees Kelvin, this light is the same bright white natural colour as the sun's rays.

EASY TO CHANGE EXPOSED DUAL DENSITY FILTERS

Essential so that overspray in the air is reduced and directly absorbed. Micro-Whirlwind fans circulates and draws excess solution directly into the filter without any interference from covers or barriers commonly found on other units.

ITEM: 61700

TECHNICAL INFORMATION

Size: Ø:1000MM/ 3'3" H:1900MM/6'2"

Weight: 50KG/132LBS

Power/Airflow: 32000RPM

Air Velocity: 2080M3/HOUR

TAN.WAVE PORTABLE EXTRACTION UNIT

MARQLABS[®]
PROFESSIONAL TOOLS

PROFESSIONAL CLEAN AIR & EXTRACTION PORTABLE UNIT WITH MICRO-WHIRLWIND TECHNOLOGY

FOR TANNING PROFESSIONALS OR SALON USE

The Tan.Wave Unit is a portable clean air extraction and ventilation system using Micro-Whirlwind Technology, perfect for mobile tanners, professional salons or in your home. Powerful enough to extract overspray solution in any room, the lightweight unit includes a handle and is ideal for small spaces or for mobile use. Tan.Fresh Air Micro-Whirlwind extraction system works by extracting the moisture (and any troublesome tanning solution) from the air before it travels throughout the room - protecting the health and safety of both the customers and the staff, giving you simply, a breath of fresh air.

KEY FEATURES OF THE PORTABLE TAN.FRESH AIR UNIT

- › **Minimises excess overspray** and draws in spray tan solution to ensure the area has clean air
- › **Lightweight design** for professional use, mobile or home use
- › **Easy removable filters**
- › **Suitable for tanning areas with limited space** or mobile spray tanning

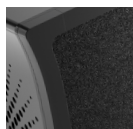

INCLUSIONS

- 1x Tan.Wave Portable Extraction Unit
- 1x Tan.Wave Air Filter
- 1x Power Cord

COMPACT DESIGN

Compact enough to be easily transported, this light unit can also be wall-mounted so it does not take up floor space, allowing you to have more space within your tanning area. Perfect for salon, mobile or home use.

DISPOSABLE FILTERS

The Tan.Wave Air Filters are designed to be replaced after 100 spray tans and can be easily disposed of.

AIRFLOW & RPMs

Brand new Micro-Whirlwind Technology delivers a continuous stream of powerful air. The custom 3D turbine motor generates an air velocity of 520m3 per hour, so spray tan solution is absorbed directly into the filter for maximum extraction and clean air.

ITEM: 62250

TECHNICAL INFORMATION

Size: W: 250MM/9.8" L: 166MM/6.5" H: 250MM/9.8"

Noise: 35-50DB POWER CORD: 3 M/ 9.8'

ELECTRICAL SAFETY &
TESTING PERFORMED BY
Intertek

DESIGNED ESPECIALLY FOR SPRAY TANNING

The Tan.Wave has been designed especially for spray tanning. The team of experts at MarqLabs have chosen each material due to their highest quality, and the way it works with spray tan solution.

EXPOSED DUAL DENSITY FILTERS

Essential so that overspray in the air is reduced and directly absorbed. Micro-Whirlwind fans circulates and draws excess solution directly into the filter without any interference from covers or barriers commonly found on other units. The first layer acts as a obstruction filter, where it catches the fine particles of spray tan within the air. The second layer is a high-density woven filter that prevents unloading and escaping the filter.

AIRFLOW & RPMs

Brand new Micro-Whirlwind Technology delivers a continuous stream of powerful air. The custom 3D turbine motor generates an air velocity of 520m3 per hour, so spray tan solution is absorbed directly into the filter for maximum extraction and clean air.

DESIGNED TO FIT PERFECTLY INTO TENT OR CUBICLE

Compact enough to be easily transported, this light unit can also be wall-mounted so it does not take up floor space, allowing you to have more space within your tanning area. Perfect for salon, mobile or home use.

TAN APPLICATOR EXCESS 2

MARQLABS
PROFESSIONAL TOOLS

TAN APPLICATOR EXCESS 2 WITH "QUICK" CONNECT

Extreme volume for faster, darker application of spray tan. A powerful atomisation for darker results.
